

**Step 1: Initial Design Consultation 30 minute**

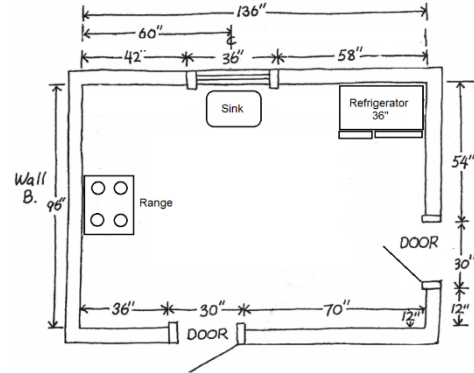

This will be your opportunity to discuss your design goals, preferences, and requirements with our designer. Bring measurements and photos to streamline your time and get the most out of this free session! We will create a first draft render and a budgetary estimate, this will give you the initial idea of your project's scope.

\* Please note that the initial design consultation does not include any site visits. The consultation primarily focuses on gathering information and discussing design concepts to ensure a clear direction for your project.

What to bring:

- Photos of your existing space
- Inspiration photos
- Material samples from showroom
- Appliance product numbers – if applicable
- Measurements including the following:
  - Wall lengths/heights
  - Window/door width & height
  - Window center (from corner of wall)
  - Appliance Locations
  - Sink Center

Example:

**Step 2: Design Services**

After the initial consultation, we will refine the design and, if necessary, schedule a site visit to assess the space, take measurements, and finalize material choices. This step ensures we create a detailed design concept with visualizations tailored to your project.

We also provide full Interior Design Packages upon request. These packages include services such as floorplan design and revisions, colour schemes, material selections, 3D renderings and more.

**Step 3: Confirmations**

Once the design plans and material selections are finalized, we will review them for confirmation. This step ensures that all aspects of the project, including layout, materials, and aesthetic choices, meet your expectations and preferences. You will be sent an online document to sign, so make sure you read it carefully!

**Step 4: Deposit**

At this stage, we will request a deposit payment equal to 75% of the total project cost. The deposit serves as a commitment to move forward with the project and covers the procurement of materials, and other design elements.

**Step 5: Order Placement**

With the deposit secured, we will proceed to place orders for the chosen finishings, materials, and other design elements. This step involves coordinating with suppliers, manufacturers, and vendors to ensure timely delivery and availability of the selected items.

**Step 6: Delivery and Final Payment**

Once the orders have been placed, we will schedule the delivery/pick up of the purchased items. Once the project is complete, the remaining 25% of the project cost will be due as the final payment.

\*It is important to note that these steps may vary depending on the specific design project.

**We are committed to working closely with you to bring your vision to life and create a space that reflects your style and functional needs!**

Thank you for considering Carrara Cabinets for your design project. Whether you are planning the entire process with us or just seeking a design, please review the following steps and fees associated with our services.

**Design Process**
